

HOW TO ORDER CUSTOM EVERLIFE® CHAIR MATS

ANCHORBAR® CLEAT SYSTEM

Carpet chair mats feature an exclusive AnchorBar® cleat system that grips carpet and is easier to handle than sharp traditional pointed cleats.

1 Select your surface

Do you need a chair mat for a carpeted or hard floor surface?

CHAIR MAT TYPE	DESIGNED FOR	SIDE A Max. Size	SIDE B Max. Size	Beveled Edge Max. Size	Straight Edge Max. Size
Medium Pile Carpet	Carpets up to 3/4 inch thick (including padding)	60 inch	16 feet	12 feet	16 feet
Extra High Pile Carpet	Carpets over 1 inch thick (including padding)	72 inch	16 feet	12 feet	16 feet
Hard Floors	Hard floors such as wood, tile and laminate	60 inch	16 feet	12 feet	16 feet

2 Design your chair mat

Each ES ROBBINS EverLife® custom cut chair mat is made-to-order. This allows you to design a chair mat that is tailored to your workspace. Corner desks and conference areas? We have you covered. Simply use the provided graph to sketch your chair mat shape and specify overall size. Be sure to label the length of each line on your chair mat drawing.

Note: To best fit your space, the overall width and length measurements need to be equal. For example, the top/bottom measurements should be equal, and the left/right side measurements should be equal.

3 Choose your chair mat edge style

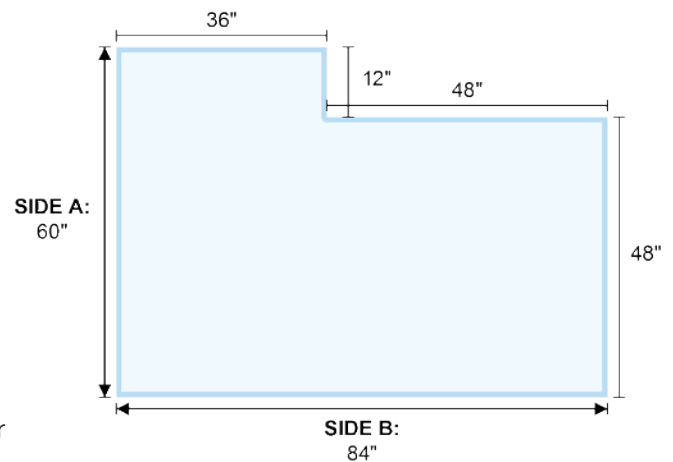

Beveled Edge: A ramped edge helps ease transition when rolling from floor to chair mat surface. Available on custom chair mats up to 12 feet on longest side.

Straight Edge: Clean, straight-cut 90° edge with no ramp. Available on custom chair mats up to 16 feet on longest side.

4 Place your EverLife® custom chair mat order

Contact your Sales Representative or ES ROBBINS Customer Service for details.
